International Conference on Digital Libraries 2010

Shaping the Information Paradigm

Organizer
The Energy and Resources Institute

Partner
Indira Gandhi National Open University

Associates
The overwhelming success of ICDL 2004 and ICDL 2006 has encouraged and motivated the conduct of ICDL 2010. This will be yet another stimulating forum for DL professionals, the world over, to share their knowledge, experience, and wisdom; besides being a tool to bridge the digital divide between developed and developing countries. The conference focuses on ‘Shaping the Information Paradigm’ to foster knowledge among the library and information professionals. The conference will also discuss the strengths and potential of digital libraries and their role in educational, cultural, social, and economic development.

**Background**

**Objectives**

- Provide a platform and enable interaction among DL experts, researchers, academics, and students;
- Facilitate creation, adoption, implementation and utilization of DL’s, and their future implications towards shaping information paradigm;
- Enable developed and developing countries to bridge the digital divide through knowledge sharing

**Conference highlights**

- 40 internationally renowned speakers will share their views
- Awards will be given for the ‘best paper’ and the ‘best poster’.
- Selected papers will be published in the WDL Journal
- Participants will be given tutorial and conference proceedings
- International vendors and publishers will exhibit their products
- Separate poster sessions will be organized

**Who should participate?**

- Library and information science professionals
- IT and knowledge service providers
- Policy makers
- Academicians, research scholars, students, and distance learner
- Archivists and museologists
- Information providers, publishers, and vendors
- Stakeholders from the digitization and knowledge business
- Management professionals
- Knowledge workers and managers
- Content managers
- e-publishers
- Virtual communities

Shaping the Information Paradigm
Programme Structure

**Call for papers**

Original papers focusing on the theme of the conference—Digital Libraries: Shaping the Information Paradigm are invited for the conference poster and tutorial. Topics for contributions (but are not limited to) may include the following:

- DL development, architecture, and management
- Contents management in DL
- Information storage and retrieval for global access
- Multi-linguality and interoperability issues
- Digital rights management
- Digital preservation and access management
- DL case studies
- Semantic web
- KM (knowledge management) and organizational repositories
- E-learning and e-publishing
- DL standards and policy
- Open archives initiatives
- Role of digital libraries in educational, cultural, social and economic development
- ODOL (Open, distance and online learning)
- Multimedia content
- Virtual support to distance learners
- Web based methodologies (web 2.0, wiki, etc.)
- E-resources management for distance learners
- Access management
- m-learning technology
- Open educational resources

**Paper submission guidelines**

The original papers submitted should be typed on MS Word 2000. The word limit for each paper is 5000 words. All papers should be written in English for acceptance in the conference presentation. Each submitted paper will be reviewed by a panel of experts and only well-researched and well-written papers will be accepted for presentation. It is expected that all accepted papers will be presented at the conference by the author(s). A few papers will also be selected for the poster session presentation.

Papers should be submitted to the ICDL Secretariat, using the conference website or electronically at <icdl@teri.res.in>. For details of paper submission guidelines and submission process, visit <www.teriin.org/events/icdl>.

**Important dates**
